

WEATHER—For Kentucky
Saturday fair and cold.

HOPKINSVILLE KENTUCKY, SATURDAY, OCTOBER 21, 1916.

VOL. 37—No. 217

EDITORIAL COMMENT.

The first blizzard has hit the west and freezing weather is predicted for Kansas.

Owensboro is imitating Hopkinsville by sending out boosters in the county towns.

Leut. Wm. Thaw, reported killed in France, is alive and well and was in Paris Wednesday.

Evansville bakers have decided not to cut the loaf or raise the price for a while longer.

There are 3,487 Indiana soldiers on the border and those who are legal voters will lose their votes.

Even the original Rough Rider, "Buffalo Bill," has come out for Wilson and says Hughes will be left at the post.

The Kentuckian can supply you with Caron's city directory of Hopkinsville. Every business house needs one.

Evansville Democrats are covering all of the Hughes money that shows up at even bets. Thursday \$1,700 was placed, all that could be found.

Prof. Elliott Buckner, who is a candidate for the legislature in Montgomery county, Tenn., is one of Ferrell's Boys and a former resident of this city.

German newspapers are asserting that submarine warfare will be resumed and that it will be carried on in Western waters along "well-known shipping routes."

Wind and weather permitting, the boosters will make a 93-mile trip through the Cadiz territory next Tuesday. This will be the last boost until after Wilson is re-elected.

Bliss Perry, former editor of the Atlantic Monthly, who voted for McKinley and Taft, has come out for Wilson and declares that he knows personally that the abuse heaped on him by Hughes is underserved.

Hughes has shifted again and now claims to be for peace. He said at Saginaw: "A vote for me, is a vote for permanent peace based on self-respect and the esteem and respect of others."

The U. S. Public Health service has sent out a notice that owing to the shortage in the paper market the mailing list of health bulletins will be curtailed. A horrible fear has arisen that our old friend the Cong. Rec. may have to be cut down to actual happenings in Congress.

The primary election to nominate a candidate for Mayor, or rather two candidates who will have to run against each other Nov. 7, will be held today between the hours of 6 a. m., and 4 p. m. Only the newly registered voters can participate. At least four of the five candidates are confident of getting on the November ballot. A guess is too hazardous.

The women vote in Illinois and they are everywhere turning to Wilson. A Republican women's Wilson club was organized with a membership of over 200 and a similar organization was organized at Carbondale. These clubs are springing up throughout the state like mushrooms. There is not a hamlet in Illinois that has not a women's democratic club augmented in many instances by republican women's Wilson clubs.

The republican campaign of vilification which he likens to that waged against Abraham Lincoln in 1864, has caused Dr. Washington Gladden, of Columbus, O., the distinguished clergyman and author, a lifelong republican, to declare himself for President Wilson's re-election. Dr. Gladden cast his first vote in 1860 for Lincoln and has voted for every republican elected to the presidency since. In 1912 he was a leader in the progressive movement.

JUDGE BUSH
ON THE HUSTLE

Looking After Local Organization This Week Between Times.

CALLOWAY NEXT WEEK

His Opponent Has So Far Made No Public Speeches In His Candidacy.

Judge Chas. H. Bush has spent all this week at home. He has held court occasionally and some cases have been tried by Judge McCarroll, in winding up the matters that have to be passed upon. Judge Bush will go to Calloway next week for a number of speeches. So far as known his opponent, Sam T. Fruit, is making no active canvass, at least no speeches have been reported.

Judge Bush is receiving the undivided support of the Democratic party as well as many Republicans who recognize his great ability and realize the necessity of having a lawyer of his character and experience on the bench. His friends confidently believe that he will run ahead of the national ticket in this county. Few if any of the 800 Democrats who scratched last year will fail to vote for Judge Bush.

C. P. MEETING
HAS CLOSED

Dr. Courtner's Discourse Last Night One of Best of Series.

The series of meetings, which had been in progress at the Cumberland Presbyterian church for two weeks, came to a close last night, and Dr. Courtner left at once for his home in Marshall, Missouri. After a few days' rest, he will begin another meeting in that state. Large crowds attended all the services here and the meeting was productive of much good. His discourse last night was one of the best of the series and was delivered to a very large audience.

DAUGHTERS OF REVOLUTION.

The Clarksville members of the D. A. R., who expected to be here yesterday afternoon at a meeting of the local chapter, were deterred by the weather from coming. The local daughters held an interesting meeting as planned, inviting a number of ladies to take the places of the delegation from Clarksville. The Library Assembly room was beautifully decorated for the occasion and the program was carried out and refreshments were served.

NEARING COMPLETION.

Maret & Kruger, roof contractors for the Weyman-Bruton factory, are now putting on the roof, which contains more than 400 squares. The general contractor was to finish the work by Oct. 25, but the roof contractors have been unable to get materials in time. The permanent floors will be laid as fast as the roof is put on, which will make the big building ready for occupancy.

Norman Prince, of Boston, Sergeant-Major in the Franco-American Flying Corps, has been killed, according to dispatches from Paris. Prince was decorated for distinguish service a little over a week ago. He was a Harvard graduate who gave up a law practice in Chicago to volunteer for service with the Allies. He was decorated in October, 1915, for destroying a German warplane. His machine was shot down in an aerial battle over Verdun last June, but he escaped without injury and was reported recently to have brought down two German aeroplanes in Alace.

CAR SHORTAGE
IS SERIOUS

Coal Situation Is Much Unsettled In Consequence.

GRAB GAME FOR CARS

Local Dealers Are Having Much Difficulty To Get Coal.

Louisville, Ky., Oct. 20.—Because the coal car shortage has developed to a point where a steam coal famine exists in Louisville, as well as advanced prices on domestic coal, action by the Interstate Commerce Commission is declared by coal men to be the only hope of preventing a troublesome situation. Almost prohibitive prices are in effect, it developed Thursday.

Prices quoted by dealers on steam coal show that manufacturers are now paying \$2 a ton at the mines for coal for which they paid 75 cents a few weeks ago. Delivered in Louisville, this coal is \$2.75 per ton. Domestic coal has just taken its second jump of the season and the best grade is selling at \$4.50 and inferior grades at \$3.75 per ton, an advance of 65 cents over the summer place.

The same condition exists in this city, and though within 30 miles of the mines the local dealers are having a hard time to get coal enough to fill even small orders. Some summer contracts are unfilled and the L. & N. railroad claims that more than half of its 19,500 cars are now off the system and can't be gotten back. There has been some talk of starting a wagon train to the mines.

CONGRESSMAN
HEFLIN

Booked For a Speech Here November 4.

Congressman Heflin, of Georgia, will be in the city November 4, and will speak at the tabernacle at 7.30 p. m., in behalf of the Democratic ticket.

The first annual report of the Alliance, Ohio, Chamber of Commerce, of which C. H. Bleich, is secretary, has come to the Kentuckian with a pamphlet of fourteen pages telling what the Chamber has accomplished in a year. Mr. Bleich is keeping up his reputation as a hustler and seems to be making good in his new field of activity.

ENGLAND
INTERFERING

New York Tobacco Merchants Association Wires R. E. Cooper.

Mr. R. E. Cooper yesterday received the following telegram:

R. E. Cooper,
Chairman Conference Committee.
Tobacco Growers of U. S.
Hopkinsville, Kentucky.

According to newspaper reports, the British Government is again interfering with American shipments of tobacco. If there is anything our Association can do, please advise us.

Charles Dushkind, Sec.
Tobacco Merchants' Assoc.
5 Beekman St., N. Y.

Mr. Cooper wired the Association to use its influence with the Secretary of State to put into full force and effect the James Amendment to the Revenue bill, which authorizes retaliatory measures to be backed by the army and navy.

FREES TOBACCO
FROM TENNESSEE

The Notice Relieves Tension Brought About By Recent Seizures.

Washington, Oct. 20.—The State Department received an official report Thursday containing the information that Great Britain has released a cargo of 500 hogsheds of dark tobacco shipped by Rudolph Hach & Company, of Clarksville, Tenn., on the steamer Trafalgar and consigned to Copenhagen, Denmark, presumably for trans-shipment to the Central Powers.

The department's advice gave no further details, but the news tended somewhat to relieve the tension caused by the recent announcement that the British Government is holding up large consignments of American tobacco on the ground that they failed to comply with the recent provision under which cargoes paid for before August 4 and shipped before August 30 might proceed.

A storm of protests has reached the State Department from tobacco firms and some individual growers in the dark region against the announced purpose of the British Government to enforce literal compliance with the requirement that the tobacco must have been paid for before August 4 by the ultimate consumer to be allowed to proceed. It was believed that all the British Government would insist on would be a bona fide sale to European wholesalers.

WILL SHELL
THE WOODS

Democratic Orators Will Start Vigorous Speaking Campaign Next Week.

MANY SPEAKERS OUT

Republicans Also Will Hold Numerous Meetings In The County.

From now on it will be politics first and the rest nowhere.

The Democrats will start out a full corps of speakers Tuesday to hold meetings at the many places in the county mentioned on another page of this paper. Some of the local speakers have been called upon by other counties, but there will be enough left to assure a red-hot campaign from now on.

The Republicans also have a list of appointments, but it is not their custom to give too much publicity to what they are doing. They are evidently relying mostly on a still hunt to hold their normal majority in this county, in the face of the coming landslide for Wilson.

CHICAGO MAN RUN
OUT OF KY. TOWN

Makes Remarks About Paducah Mob That Lynched Negroes.

Paducah, Ky., Oct. 20.—Because he made a remark in connection with the lynching of two negroes here Monday morning, Jack Ringhesin, of Chicago, foreman of a crew of steamship fitters at work at the Illinois Central shops, was chased from Paducah by employees of the shops, who gave him two hours to leave.

Ringhesin didn't wait for a train, but crossed the river to Illinois in a gasoline boat. He was alleged to have said that the north whipped the south once about the negroes, and would do it again if necessary.

G. D. Rose, husband of the woman victim of one of the negroes lynched, is employed at the shops, where more than one thousand men are employed.

MURDER CASE
CONTINUED

Examining Trial of Negro Reset For Friday, November 17.

The case of the commonwealth against Ben Rudolph, col., was called for examining trial in county court Wednesday and continued until Nov. 17. Rudolph is charged with killing Vernon Word, another negro, on North Virginia street, last Monday morning. Word was shot twice, once in the shoulder and once in the head. He lived less than an hour.

RACING THIS
AFTERNOON

Interesting Program Arranged and Cards Are Well Filled For Event.

About thirty horses are here to take part in the races at the Pennyroyal fair grounds this afternoon. Each of the three races to be given this afternoon will be well filled. All of the horses are seasoned campaigners and winners from the southern fair circuit and lovers of classic sport should be well entertained with the program.

FRENCH CLOSE
IN ON PERONNE

Drive Reaches Eastern Banks of Somme—Rumanians Take Offensive.

MANY PRISONERS TAKEN

Troops of Central Powers Pushed Back at Several Points by King Ferdinand.

London, Oct. 20.—Gradually the French are drawing their front closer to the town of Peronne, on the eastern banks of the Somme river in France.

To the north and east of Sailly-Sailliesel, where the French have advanced their line in the last few days at what the Berlin war office asserts was a cost in casualties not commensurate with the gains, the Germans have made a violent counter-attack, which was repulsed by the French.

Berlin admits that in their attacks on the Sars-Morval front, the British captured German positions, but says these later were retaken. Heavy rains fell Thursday on the British front and except for a slight gain by the British at Butte de Warlencourt and the repulse of a German counter-attack, comparative quiet prevailed.

As yet no decisive results have been achieved by either the Austro-Germans or the Russians in the violent fighting that has been going on for several days in Volhynia and Galicia. South of Zborow in Galicia several enterprises have been carried out successfully by the Austrians, while at other points Russian attacks were put down.

RUMANIANS TAKE OFFENSIVE.

Having held the Teutonic allies in the mountain passes on the Transylvanian-Rumanian border for several days, the Rumanians have taken the offensive at various points and now are declared to be pushing back their adversaries, who are leaving prisoners and guns in the hands of the Rumanians.

Berlin, however, controverts this statement by the assertion that the Austro-Germans are engaged in successful fighting in the mountain passes.

Generally speaking there is no change in the situation in Macedonia, although the entente and Teutonic allies make claim to minor successes on various sectors. The Bulgarians in the vicinity of Monastir are bringing up reinforcements and a large number of trench mortars.

Except on Mount Pasubio in the Trentino region where the Austrians in violent attacks recaptured positions taken Tuesday by the Italians, only to be driven out again, artillery duels are taking place in the Austro-Italian theater.

THE OLDEST BOOSTER.

Mr. J. P. Thompson is preparing to meet the boosters at Cadiz next Tuesday. The whole trip is a little too strenuous and the schedule too swift for the old veteran tobaccoist, but he will take a straight shoot for his old stamping ground and be there when the other boosters arrive.

Bail is Refused.

Madisonville, Ky., Oct. 20.—Judge Henderson today overruled the motion for bail in the cases of Mack Logan, D. F. Tribble and Buck Ferguson, all under indictment charged with wilful murder as the result of the killing of Chief of Police Keach at Dawson Springs last July. The case was continued until Feb. 13, after the jury had been made up, on account of failure of material witnesses to show up as expected.

Meet In Louisville.

The Federal Farm Loan Board will hold a second hearing in Louisville November 24, according to announcement in Washington.

The State bakers were loafing
around Paducah several days this
week.

The city of Murray will vote on a
bond issue of \$20,000 Nov. 7th to
provide funds for constructing a mun-
icipal lighting plant.

The Republicans are complaining
that Wilson is keeping off the stump.
What's the use, when Hughes and
Roosevelt are both making votes for
him by their speeches?

Organized bakers of Kentucky in
their annual meeting in Paducah dis-
carded their cape of the Kentucky
Master Bakers' Association and
donned a new and more involved
cloak—the Kentucky Association of
the Baking Industry.

In 1912 when Justice Hughes was a
member of the supreme court and
was asked to become a candidate for
president, he said: "The man who on
the highest judicial tribunal would
consider another office as fit neither
for the one he holds nor for the one
to which he aspires."

Lena Bonafiglio, a thirteen-year-
old school girl, was taken to jail at
Clarksburg, W. Va., charged with
killing her father, Frank Bonafiglio,
as he slept in their home. His head
was literally chopped to pieces with a
hatchet. The police declare that the
child complained bitterly of her father's
treatment of her.

William Shaw, a former Yale stu-
dent, who had been in the aviation
corps of the French army since the
outbreak of the war, has been killed
in action, according to word received
by a member of the senior Yale class,
who is now serving with the Ameri-
can ambulance corps in the French
army. No details are given.

Democrats are preparing to shell
the woods in Calloway next week and
on up to the election. The Murray
Times has a list of 144 speaking ap-
pointments leading up to 19 rallies on
Nov. 3 and 4, at which 15 speakers
will preach Democratic doctrines.
Congressman Barkley, C. H. Bush,
W. R. Howell, N. W. Utley and other
outside speakers are in the thick of
the fight.

The South was rocked by earth-
quake and swept by storm at the
same time Wednesday. While a tropi-
cal hurricane was flaying the gulf
coast, earth tremors overturned chim-
neys and frightened many people
from their homes in Alabama, Geor-
gia and Tennessee. The earthquake
did little damage, but a wind that
reached a velocity of 114 miles an
hour lifted roofs from houses at Pen-
nacola, Fla., and sank a number of
vessels in the harbor. One life was
lost.

TOOTHBRUSHES ARE HIGHER

How the War Has Seriously Affected
the Price of Indispensable
Toilet Adjunct.

The humble toothbrush will become
a luxury if the European war con-
tinues another year. Unless peace is
declared soon, fifty cents or even
one dollar apiece may become the
price of the handmade toothbrush
that has been selling for twenty-five
or thirty-five cents. The "brushmen"
of France have been decimated by the
German army. They are in the valley
of the Oise. In those towns are the
factories for sorting and bleaching the
bristles, placing the bone handles and
preparing them for the peasants to
fill with bristles.

It is in the valley of the Oise, too,
that the peasants who fasten the bris-
tles in our handmade toothbrushes
live. All through that valley the res-
tified stone cottages of the peasants
sheltered girls and old women who
made toothbrushes during every spare
minute of the day. Twelve cents a
dozen was the price paid for the work
when the American importers went
into the toothbrush business in
France. They contracted for a large
part of the output of the French fac-
tories, and raised the price paid to
the bristle workers to fifteen or even
eighteen cents a dozen.

The price of good bristles has
doubled and trebled since the Euro-
pean war broke out. All toothbrush
bristles come from Russia and China.
The best grades are the Russian, and
the best of the Russian bristles grow
in winter on a sort of half-wild bear
that is native to the Russian steppes.
The bears rub on the forest trees and
shed their bristles. These the peas-
ants collect at certain seasons of the
year. Every hog that is slaughtered
for food is carefully shorn of its
bristles. The bristles are seven or
eight inches long, and very thick at
the base. Inferior bristles used in
Japanese brushes come from China,
where the winters are not so cold and
the bristles do not grow so stiff.

Since fighting began in Europe the
Russian people have been too poor to
eat meat. And there is no time to
save the bristles from hogs killed to
feed the soldiers. The Hebrew ped-
dlers who went through the Russian
country exchanging tinware and house-
hold utilities with the peasants for
these bristles have stopped their trips.
Good bristles cost ten dollars a pound
now, and they will go still higher.—

TO BUILD IMMENSE FLEET

Pacific Coast Capitalists Will Go Into
the Business on a Scale That
Is Gigantic.

Plans for the construction of a great
number of wooden vessels for ocean
and river traffic on the west coast have
been made public. Robert Velch of
Portland, Ore., announced that ship-
building on a gigantic scale is to be-
gin as soon as a group of Washington
and Oregon state capitalists complete
the erection of a mammoth shipbuild-
ing plant at Portland. Eastern men
were backing the enterprise, which is
being managed by men of Portland,
Spokane, Seattle and other cities of
that vicinity.

"They have completed the organiza-
tion of a corporation that is to engage
in the business on a gigantic scale,"
Mr. Velch said. "One attractive fea-
ture about the enterprise is that our
market is assured and it will be as-
sured for many years."

"The advantages of building wooden
instead of steel vessels in Portland is
obvious. Each ship will take about 2-
600,000 feet of lumber. The consump-
tion of Oregon forest products, there-
fore, will be extended. These vessels
will be equipped with sails, also hav-
ing auxiliary power plants."

Disinfected at Border.

To kill typhus germs and the para-
site which carries them, a large camp
has been built at Eagle Pass, Tex.,
for the disinfecting of travelers. All
their clothing is removed, thrown into
a sheet and baked for twenty minutes
in an immense oven.

The clothing is taken from their
baggage and treated likewise. The
hair and body of the travelers, man
or woman, is then sponged with gaso-
line by an attendant to kill any stray
vermin, and trunks and bags are treat-
ed in the same way.

Although no one is supposed to be
exempt from the ordeal, \$50 judicious-
ly placed in the hands of a Mexican
official will relieve one from this un-
pleasant experience.

Shelter Between Hostile Trenches.

A French bird magazine says that
partridges, which are very numerous
near the front, are to be found most-
ly between the French and German
trenches among the barbed-wire en-
tanglements.

It is, in fact, the only spot where
they can be, comparatively speaking,
at ease, for humans seldom venture
into this no-man's land. Sometimes
they find themselves in the middle of
a cannonade, but they lie close and
seem to mind the noise very little.

The magazine gives a list of birds
who are afraid and run away and
those who do not mind war. The first
includes starlings, swallows and spar-
rows, and the last larks, titlarks, wag
tails and grosbeaks.

Flaxseed.

During the five years ending June
30, 1915, an average of 5,154,000 bush-
els of flaxseed was imported into the
United States yearly from Canada,
2,118,000 from Argentina, and 1,119,
000 bushels from other countries.

LET GOOD RESOLUTIONS FADE

But Fugitive Impulse to Lead Better
Lives Can't Help But Have an
Ennobling Effect.

In one of his published sermons
Henry Ward Beecher pictures a com-
pany of some twoscore persons, him-
self among the number, traveling by
steamer down the Ohio river. Sabbath
morning dawned, and the passengers
ask the clergyman to conduct a relig-
ious service and give them an infor-
mal talk. He preaches on Paul's
words, "In honor preferring one an-
other." As the preacher unfolds the
nobility and beauty of the unselfish
life, not a few of his listeners are
deeply moved. Here a head is bowed
in serious thought, there a teardrop
glistens in the eye, and frequently a
hearer nods emphatic agreement with
the preacher's words.

But as the notes of the closing hymn
die, the gong sounds for dinner, and
the congregation rushes away in hot
haste to get the best places at table
and the first serving of food. At the
first opportunity to put into practice
the truth of the morning's sermon, the
hearers forget the generous emotions
it had excited, and let the selfish, self-
seeking habits of life resume their
 sway.

And yet, Mr. Beecher adds, these
people were not hypocrites. The emo-
tion was genuine. While the impulse
lingered they really meant to live more
for others and less for themselves.
But the impulse was fugitive. They
never seized hold of it and molded it
into a firm purpose.

What splendid biographies almost
any of us might bequeath to the world
if we could honestly express them in
the terms of fleeting aspirations and
impulses toward good and noble
things! And what a melancholy chap-
ter in even the best life is made up
of its defeated ambitions, its un-
wrought deeds of kindness, its manly
resolves that never came to anything,
its heaven-sent visions that faded out
in the light of the common day! The
fugitive impulse is too weak to be
trusted, but it has in it the making of
that which curbs unruly passions, sub-
dues deep-seated habits, and shapes
the whole life on the broad lines of
Christ's perfect manhood.—Youth's

Worth Weight in Gold.

Abingdon, Va.—Mrs. Jennie Mc-
Call, of this place, says, "I had been
troubled with neuralgia, for
over ten years. I could not walk or
stand on my feet, and had been
almost confined to the house, for a
long time. I began to take Cardui,
the woman's tonic, and now I can
walk anywhere I want to go. Cardui
is worth its weight in gold." This is a high estimate on a plain,
herb medicine, yet there are thou-
sands of women who would gladly pay
this price for a remedy to relieve
their suffering. Cardui has helped
others. Why not you? Try it.
Your druggist sells it, in \$1. bottles.

WAR! What Is It All About?

HAS the whole world gone stark mad over a very foolish and trivial question? Are swords rattling, cannon rumbling, mailed armor glistening just because Russia wanted to show her love for the little brother—Serbia? Tear aside the curtain of Europe's politics and see the grim and sinister game of chess that is being played. See upon what slim, yet desperate, excuse the sacred lives of millions are being sacrificed. Read the history of the past one hundred years, as written by some of the greatest authorities the world has ever known, and learn the naked, shameful truth. Just to get you started as a Review of Reviews subscriber, we make you this extraordinary offer. We will give to you

FREE—"Europe at War"

A big book and over 300 pages, size 10 x 7 inches, handsomely and durably bound in cloth, containing the dramatic history of the great events leading up to the present time: over 50 important and timely special articles by experts on the different phases of the conflict; hundreds of graphic pictures, portraits, photographs, diagrams, specially drawn war maps, illuminating statistical records, copies of official documents and diplomatic messages exchanged between the powers—a clear, vivid, accurate, permanent, interesting and valuable record—a record which once seen you will not willingly be without. Europe's past and present are here dramatically pictured and presented. Hundreds of illustrations graphically tell their own stories. More fascinating than any romance, here is a history so vivid, so dramatic, so stirring, so fascinating, so realistic, so wonderfully presented, so thrillingly told that it leaves an ineffable impression.

Your War News Clarified

It is not enough to read the daily news reports. Your ability to comprehend conditions and to discuss them rationally depends on a true interpretation of the meaning and the reason why of events. In your mind you must bring order out of chaos and the Review of Reviews will do it for you.

Get the Review of Reviews for a Year

Send the Coupon only. It brings the big, handsome book, charges prepaid, absolutely free. All we ask is that—after you get the book and like it—you send 25 cents for shipping and \$1.00 a month for three months to pay for the "Review of Reviews" for one full year.

THOSE THAT HAVE—GET BY A.T. WESTON

Good Manners Help.

A merchant who returned from England just before the war broke out has been voluble ever since on the manners of the children he happened to meet abroad. Apparently American parents and schools do not lay on good manners the emphasis that they receive abroad. Yet good manners, like the gold at the foundation of all money, are current the world over. Emerson noted this: "Give a boy dress and accomplishments and you give him the mastery of palaces and fortunes wherever he goes. He has not the trouble to earn or own them; they solicit him to enter and possess." "All your Greek," Chesterfield wrote to his son, "can never advance you from secretary to envoy, or from envoy to ambassador, but your address, your air, your manner, if good, may." "The difference between a well-bred and ill-bred man is this," Samuel Johnson said. "One immediately attracts your attention, the other your aversion. You love one until you find reason to hate him; you hate the other until you find reason to love him." Civility, polished manners, mean much to a youth in his first position. —Kansas City Star.

Improved Electric Fan.

A novel type of electric fan may be suspended by its own feed cord from any suitably placed lamp socket, the space usually taken up being thus saved. The fan is five inches in diameter, and with its socket weighs but little more than two pounds, but on any alternating or direct current circuit of 110 volts is driven at a speed that gives a good circulation of air throughout a room of ordinary size.

"BUFFALO BILL" OUT FOR WILSON

"Hughes Can't Ride Wilson, Pulling Leather Already," says Real Rough Rider.

Cheyenne, Wyo., Oct. 20.—The greatest rough rider of them all, "Buffalo Bill," himself, has come out for President Wilson's re-election. Col. Cody is a great admirer of that other eminent colonel and rough rider but cannot unite with Theodore Roosevelt in endorsing Mr. Hughes.

"Buffalo Bill," had always been a republican until a few years ago when he lined up with the progressives. How he stands this year is shown by a characteristic telegram sent by him from Kingston, N. C., to Frank L. Houck, secretary of state, Wyoming. Col. Cody's announcement reads: "Hughes can't ride Wilson. He is pulling leather already and will be disqualified."—Bill Cody.

YOUNG WOMEN MAY AVOID PAIN

Need Only Trust to Lydia E. Pinkham's Vegetable Compound, says Mrs. Kurtzweg.

Buffalo, N.Y.—"My daughter, whose picture is herewith, was much troubled with pains in her back and sides every month and they would sometimes be so bad that it would seem like acute inflammation of some organ. She read your advertisement in the newspapers and tried Lydia E. Pinkham's Vegetable Compound. She praises it highly as she has been relieved of all these pains by its use. All mothers should know of this remedy, and all young girls who suffer should try it."—Mrs. MATILDA KURTZWEG, 529 High St., Buffalo, N. Y.

Young women who are troubled with painful or irregular periods, backache, headache, dragging-down sensations, fainting spells or indigestion, should take Lydia E. Pinkham's Vegetable Compound. Thousands have been restored to health by this root and herb remedy.

If you know of any young woman who is sick and needs help, advise her to write to the Lydia E. Pinkham Medicine Co., Lynn, Mass. Only women will receive her letter, and it will be held in strictest confidence.

President Buchanan's Carriage

James Buchanan was the only President of the United States who came from Pennsylvania. He was elected in 1856, served four years and died at his home, "Wheatland," in Lancaster, Pennsylvania, in 1868. Previous to his term as President he had been Minister to England and was the only American who had the honor of dancing with Queen Victoria.

A carriage which is now owned by D. T. Hess, a carriage builder of Quarryville, Pa., was built for President Buchanan by his friend, D. A. Attkie, who was at one time the leading carriage builder of Lancaster. It was built some time in the fifties and was used by Mr. Buchanan in Washington while he was President. The vehicle was purchased at a sale of his personal effects in 1868 by the late C. M. Hess, of Quarryville, and came into the possession of the present owner several years ago. It has been repaired several times by Mr. Hess, and, although it has been in use for more than half a century, is in perfect condition today and promises to give good service for many years to come.

DETROIT GIRL HELD FOR BIGAMY

Daughter of Prominent Physician Arrested After Marriage to Banker.

Terre Haute, Ind., Oct. 20.—Ruth Day McLean, daughter of Dr. Angus McLean, noted surgeon of Detroit, Mich., who on Tuesday afternoon was married here to Arnold Zumstein, broker of Detroit, was returned to Detroit Wednesday evening by her father, after the local police had formally placed her under arrest a short time after marriage on a charge of bigamy. A former marriage Sept. 17, 1915, had never been dissolved.

Dental Preparedness

What is the most important attribute of a soldier?

Good feet?

No.

Good eyesight?

No.

Good brains?

No.

What then?

Good teeth.

A soldier may have good feet, good eyesight, and good brains but if he has bad teeth, he can't eat. If he can't eat he can't march near enough to the enemy to see him and use his brains to fight him.

How does a soldier get good teeth?

By having good teeth in childhood.

How do children keep good teeth?

Through being taught by their mother how to keep their teeth clean and having their teeth looked after while they are growing. This makes good teeth for future soldiers.

It would seem then as though the first patriotic duty of a mother was to keep her children's teeth in good condition.

It is.

12,000 Head of Cattle

Sold at Mt. Sterling

Mt. Sterling, Ky., Oct. 20.—Twelve thousand head of cattle were sold on the local market Monday, it being one of the largest runs in many years. Buyers were here from different States and the demand was heavy. Quality was from common to best. Prices 5½ to 6 cents for heifers, 7½ cents for steers. The mule market was strong and hundreds were sold at \$100 for suckling to \$300 for aged mules for Southern markets. One of the largest runs of mules ever seen here was offered, estimated at from 1,000 to 2,000 head.

GEORGE BINGHAM'S SUCCESS.

That the famous Hogwallow Locals originated by George Bingham, will spread the name of Mayfield throughout the length and breadth of the land, just as Irvin Cobb's name has advertised Paducah, is now a foregone conclusion. Recently Mr. Bingham closed a contract with George Matthew Adams, of New York, for syndicating the "Hogwallow" paragraphs and he has received a report from Mr. Adams to the effect that this feature has made a great hit with the big dailies throughout the country. It is copyrighted and illustrated furnished to only one paper in each city, each day in the week.

A few of the leading dailies which have contracted for Hogwallow Locals are the Cleveland News, Spokane Chronicle, The Oklahoman, Dallas News, Milwaukee Free Press, El Paso Herald, Louisville Post and many others. At the rate contracts are coming into New York for this service it is only a question of a short time until "Hogwallow" will be read by millions all over America. Mr. Adams is very enthusiastic over the hit this feature is making and by spring expects to have it placed as a daily feature in two or three hundred of the leading papers. George Matthew Adams is recognized as the leading man in the east in syndicating feature matter.

Mr. Bingham's friends are congratulating him on the success from a financial standpoint for his Hogwallow humorous paragraph which now seem assured.—Mayfield Messenger.

Congressman W. C. Adamson, father of the eight-hour law, has been assured the Democrats of this State as a speaking attraction, through his friendship for Arthur B. Rouse, chairman of the speakers' bureau. Congressman Adamson will speak at Central City to the miners on October 25.

WOMAN ACQUITTED

Of Murder On the Grounds of Self-Defense.

Hazard, Ky., Oct. 20.—Mrs. Cora Haggard, aged 19 years, who was charged with killing James Blevins, aged 75, was freed by a jury here on the ground that she was defending herself. She testified that she and Blevins met at a secluded spot on a lonely mountain trail, that the aged man attacked her, whereupon she drew a revolver from under a wrap and shot him, killing him instantly.

Mrs. Haggard is the mother of a three-months-old infant. The jury was closeted on the case only a few minutes.

HANDED OUT GOOD ADVICE

New York Minister Has Issued a Few
Commandments of His Own
Making.

A minister here has issued a warn-
ing to girls in the shape of ten com-
mandments of his own. He warns
them against immodesty, wine and
wily men. These warnings are: 1. Thou shalt not delude thy mother. 2. Thou shalt not surrender thy modesty for the favor of unprin-
ciple men. 3. Thou shalt not run
wild and fall into the whirlpool of
fashion and plunge thy family folk
into the hopper of the nerve-grind-
ing mill. 4. Thou shalt not allow the
limber tongue of the flatterer to be-
wilder thy head and master thy
strength. 5. Thou shalt not tattle. 6. Thou shalt not let frivolity of
speech or manner unclad thee of
thy attractiveness and personal
charm. 7. Thou shalt not think
more of the clothing of thy feet than
the culture of thy head. 8. Thou
shalt not smoke; thou shalt not tun-
per with the liquor cup. 9. Thou
shalt not be slothful while others in
the home toil. 10. Thou shalt find
real happiness in truthfulness, hope-
fulness, joyfulness, peacefulness and
in serving others in the spirit of the
Great Master.—New York Corre-
spondence Pittsburgh Dispatch.

POLITEST PERSONS ON EARTH

Story Seems to Bear Out Assertion
Recently Made by Louisiana
Congressman.

Representative Aswell of Louisi-
ana, who is the recognized champion
story-teller of the present congress,
maintains that the old-time planta-
tion colored man is in reality the
most polite man on earth, and he il-
lustrates it with the following story:

"Old Uncle Mose was driving a
pair of mules laden with country
produce to the county seat one day,
when in crossing a small stream that
had been swollen by heavy rains the
frail bridge that spanned it gave
way, precipitating the old man and
his team into the water.

"The old man was in a rather sorry
plight, but a white man coming up
at the opportune moment gave him
such efficient help that finally the
outfit was rescued from the creek and
landed safely on terra firma. Old
Mose was profuse in his thanks and
finally wound up with this heartfelt
expression of gratitude:

"I hohes, sah, I mought some day
kitch yuh in jes sich a fix."

CULTIVATE "BROWN STUDY."

If the "brown study" were more
often cultivated many people would
be happier, and more clear thinking
would be done, says the London
Lancet. It is in such a state that
truths dawn suddenly and clearly
upon the unclouded intelligence. It
is in such a state that mighty ac-
tions are conceived, poems born, a
stroke, and mankind enlightened
through the enlightenment of the
individual.

In this state of mind there is such
a concentration of mental energy
that the body is ignored. The mind
on the other hand, is so working
upon the subject which concerns it
is so intent upon its own affairs, that
the external world is obliterated.

PLEASANT FOR HUBBY.

Popular Mechanics Magazine For November.

Both in picture and story the No-
vember Popular Mechanics Magazine
offers many unusual features. It is
interesting to note the many new and
ingenious devices constantly being
called fourth by the European war or
by the widespread demand for mili-
tary preparedness. A number of
these are described in the November
magazine. Easily first in popular in-
terest are the British "tank cars,"
adaptation of American caterpillar and
alligator tractors. In "Tank Cars
Smash German Lines," John Anson
Ford writes of this new war engine,
which is credited with many remark-
able feats. Several fine illustrations
accompany the article. A double-
decked motorcycle ambulance which
carries two stretchers; a gyroscopically
stabilized telescope intended as an
aid in making aerial observations; a
device which adds to rifle's magazine
capacity; a new army gun mounted on
railway car; the United States Army's
new hospital train, and a new type of
kite balloon are also described.

Some of the thrills attendant on be-
ing shot down; ascending rapidly to
a height of 13,000 ft. or more, and
being under artillery fire, are suggest-
ed by Lewis R. Freeman in "Air-
men's Sensations in Battle."

Miss Baynham Entertains.

Miss Ruth Baynham charmingly

tives from churches in Western Ken-
tucky and adjoining districts.

Seduction Suit.

The suit of James F. Green against
Al Cohen, for \$10,000 damages for
the alleged seduction of Nellie B.
Green, is now on trial before a jury
in circuit court. Green claims that
Cohen accompanied his daughter
home from the Elks Fair on the night
of Sept. 25, 1915, on which occasion
it is charged Cohen debauched Miss
Green, who later became the mother
of a child. Both parties reside in the
Sorgho neighborhood, and Cohen is
in good financial circumstances. Co-
hen is denying that he wronged the
girl, and says he was never with her
but twice in his life.—Owensboro In-

Character in Reading.

The Youth's Companion does more
than entertain: It affords the reader a
mental and moral tonic. Its stories
are not only well told, contributed by
the best writers of stories, but they
maintain the standards, reflect the
ideals of the best homes. They do
not throw a false glamour over the
tawdry things of life. Rather do they
depict the courageous, the healthful,
the simple—the true life of the great-
er number with their adventures,
their conflicts of temperament, their
failures and successes. In 1917 The
Companion will print 12 serials and
story groups besides fully 250 single
stories and sketches, all for \$2.00.
The Forecast for 1917, which we will
send on request, tells all about the
great features of the coming volume.

By special arrangement new sub-
scribers for The Youth's Companion
can have also McCall's Magazine for
1917—both publications for \$2.10.

Our two-at-one-price offer includes:
1. The Youth's Companion—52 is-

Alaunia Sunk.

The Cunard line steamer Alaunia,
on her way from New York to Lon-
don, has been sunk by a mine be-
tween Falmouth and London. A few
members of her crew are missing.
The passengers of the Alaunia had
been landed previously at Falmouth.

Masons Elect.

Henry S. McElroy, of Lebanon,
was elected grand junior warden,
James N. Saunders, of Stanford,
grand master of the Grand Lodge
and Edward B. Winslow, of Carroll-
ton, grand high priest, R. A. M., at
the session of Kentucky masons.

No Punctures.

"It's easier to say 'Biddap' than to
get out and turn a crank. The tires
on this buggy never get punctured,"
replied one sensible citizen when asked
why he didn't discard his horse
for an auto.

The German diplomats at Washing-
ton now virtually concede the loss of
the Bremen, which is a month over-
due. Her capture by the British was
reported several weeks ago. She
carried a crew of 25 and a very valu-
able cargo.

Trifle Fresh.

"Sir," said the fair canvasser, "I am
selling stock in a peach orchard." "Are
you?" "Yes, sir," he replied. "If so, I think I'll invest."

The Sun and News-Leader, the two
papers at Springfield, Ky., have con-
solidated and the News-Leader quits
publication. The smaller papers of
Kentucky are now suspending at the
rate of about one a week.

LIKE PIECE OF FAIRYLAND

Remarkable Cave That Was Discovered by Merest Accident in a Mine in Arizona.

A blast in the Shattuck mine in Arizona, set for the purpose of bringing down ore, was responsible for the discovery of a remarkable cavern, now known as Shattuck cave, which has yielded unusual mineral specimens, some of the finest of which have recently been added to the collection at the Michigan College of Mines. When the miner who had been working in that part of the 300-foot level returned with the night shift he found a great opening that reached farther than his light could penetrate. Looking upward, he could see tiny lights flashing, and, in the belief that they were stars, he ran back to the shaft and declared that he had blasted a hole clear through to the surface. On investigating, the mine official found that the blast had opened a great circular cavern 345 feet in diameter and 175 feet high, which seemed like a piece of fairyland. On the roof myriads of crystals reflected the lights of the miners' lamps. The walls, the roof, and the floor were covered with great clusters of crystals, and near the center of the cavern a mass of stalactites, 40 feet long, hung from the ceiling like a great chandelier. For the most part the crystals were pure white, but, in places where the filtering waters had contained iron and copper, great transparent stalactites and stalagmites, some ruby-red, others a clear emerald green or azure blue, added to the beauty of the scene.

MARRIED MAN'S MANY DUTIES

Some Things It Would Be Well for the Youth Who Is Contemplating Matrimony to Consider.

In an article entitled "How I Made a Good Husband of My Son," the writer lays down some rules for a course of domestic training for bachelors who are thinking of being married, the Woman's Home Companion states.

"Besides heating the house," he says, "a man should have a thorough theoretical and a simple practical knowledge of plumbing, so he can be beyond the mercy of an ignorant or dishonest plumber. The upkeep of all the furniture is your province; you should be able to replace a center automatically, or in your sleep put on the pull of a bureau drawer.

"Of course he will not call in a painter when floors or woodwork need painting or a man to replace panes of glass or put up shelves, or any of the smaller tinkering around the house, any more than his wife should hire a woman to darn the stockings or do the small mending.

"One of the most important duties is to see that each window and door is perfectly screened. He should keep all the shades in proper order and see that the windows work easily and smoothly, also keep the locks of all the doors in perfect order. He should have a general knowledge of building materials, so he will be able to advise his carpenter. Naturally, too, he will keep the knives in proper condition, and no young man should wait until he is married to learn to carve."

Bison's Revenge.

An old Indian named Neyharper, who lived in that part of Oklahoma that used to be called the Indian Territory, used to tell his white friends this story of the strange but terrible revenge that a bison once took on the hunter who had wounded it in the chase:

"When I was a boy most of our food was brought in by the buffalo hunters. Killing these large beasts was hard and dangerous work, but it was very exciting. Once the hunters went out after a herd, each riding his best pony. One, who had attacked a large bull, failed to strike a vital part with his arrows, and pursued the beast across the prairie.

"Suddenly in the mad race hunter and prey came to a buffalo path that had been washed down by the heavy rains till it was two or three feet deep. The horse stumbled, threw the man into the ditch, and then dashed off, leaving him helpless. The buffalo saw the accident, turned, and tried desperately to gore the hunter. But the ditch was too narrow, and so the buffalo reached down and with its long tongue began to lick the man's bare back. Every stroke of that rough tongue tore the skin and flesh painfully. The Indian could only bear it, for he tried to escape he would meet death at the horns of the enraged beast. Before his companions found him and killed the buffalo, it had licked the flesh from his back down to the bone, and the poor man bore the scars of that terrible revenge to his grave.—Youth's Companion.

Disaster of Nepotism

Another name for nepotism is "pull." It puts the right man in the wrong place, where he can wreck enterprises. It also discourages other young men because they see that a rival has an opportunity merely because of relationship, not because of merit. This evil is particularly strong in old enterprises that run through the second and third generations. A man starts a concern, hands it down to two or three sons who vary in ability, and by the time their sons have got good positions all the way through the concern it is well fixed on the high road to ruin. Almost any person of wide observation can name a few examples to point.—Engineering Magazine.

FORCED TO SELL HER HAIR

Minor Tragedy in the Complex Life That Forms Inseparable Part of a Great City.

Her hair was gleaming black. Loose, it fell like an ink torrent as low as her knees. Dorothy Dare, like Fantine, stepped from Victor Hugo's "Les Misérables," called the pawnbroker's attention to this as she bargained with him in the little shop near Eighth and Main streets.

There being no disputing the fact that the hair did reach her knees, the pawnbroker rejoined as best he could with the counter statement, equally apparent, that Miss Dare was far from being a tall young woman. True, it was nice hair, but true, also, \$8 was a nice price.

The bargaining ended with a barber being called from a shop a couple of doors away. Dorothy Dare, twenty years old, with the bloom of the country still on her cheeks, was giving ground before the onslaught of the big city, and the luxuriant black hair was her first concession.—Kansas City Star.

Point of View.

They were standing on a busy corner of the great city. "What a hard time men have running around trying to make a little money," remarked the pessimist. "Yea," rejoined the optimist, "but look what a good time women have running around trying to spend it."

AS WON PLACE IN HISTORY

Part of German Engineer in Asia
Minor Deserving of the Highest Commendation.

Meissner, who is but a few years older than the Kaiser, went out to Turkey as a young engineer shortly after Wilhelm ascended the throne. He made one portion or another of the Ottoman empire his special field of endeavor ever since. As Germany's Eastward policy was a delicious hope rather than a definite plan up to the beginning of the present century, the first decade or so of Meissner's work in Turkey was as unselfish in character as were the labors of those distinguished Britons who have built the railways of Argentina and Peru or reformed the customs of China. During this period the foundation of the present railway system was laid in what was then Turkey in Europe, and considerable construction was also carried on in Asia Minor. How much of Meissner's work of the last fifteen years has been in direct furtherance of the Kaiser's far-reaching eastern ambitions it would be very difficult to say; probably, indeed, he has little idea himself. But however much he has been made a pawn in the game of Realpolitik, I am confident that there are very few who have followed his work of the last thirty years who will not grant that the malapring of his personal efforts was a deep and sincere affection for Turkey and the Turkish people. The type is a common one in the last century of British history, but Meissner is the only German I have ever met worthy of inclusion with the elect.—The Atlantic

Early Dynamos.

The principle of electro-magnetic induction, on which the operation of the dynamo-electric machine is based, was discovered by Michael Faraday of London in 1831. The first machine to give continuous current was that of Sir Charles Wheatstone, in England, in 1841. One of the earliest successful dynamos was that of Siemens, 1856. Gramme invented the ring winding in 1870.

Effect of One Bottle.

Grandall, Tex.—"After my last spell of sickness," writes Mrs. Belle Teal, of this city, "I remained very ill, and stayed in bed for eight weeks. I couldn't get up, all this time, and though my doctor came to see me every day, he didn't do me any good. I had taken but one bottle of Cardui, when I was up, going everywhere, and soon I was doing all my housework." Cardui helps when other medicines have failed, because it contains ingredients not found in any other medicine. Pure, safe, reliable, gentle-acting—Cardui is the ideal medicinal tonic for weak, sick women. Try it.—Advertisement.

Overfeeding Causes Obesity.

Those persons who had expected that Dr. Walter B. Bloor of the department of biological chemistry of the Harvard Medical school, would give expression to some new theory concerning the reduction of obesity, at his lecture on "Fat" at the Harvard Medical school recently were disappointed. Though the lecturer did admit that obesity was undesirable, most of his discourse had to do with the praise of fat as an article of human consumption. Speaking of obesity, he said, according to the Boston Post: "The principal cause of obesity is overfeeding. Unfortunately persons approaching middle age do not know that they are overfeeding themselves. As less exercise is taken, less food should be eaten. Persons who worry require more food than persons whose minds are at ease, for worry results in greater physical, heart and mental action. A certain scientist has shown that a daily diet consisting of a cupful of milk, one ounce of butter, one-quarter pound of meat and three slices of bread means a twenty-three pound increase in weight in a year."

More Practical.

GENERAL ASSOCIATION

Of Baptists To Meet In
Louisville November
14th to 17th.

The seventy-ninth session of the General Association of Baptists in Kentucky will meet in Louisville, November 14 to 17. The churches of Louisville are providing homes for a thousand messengers. The railroads grant greatly reduced rates. Automobiles will convey passengers from the depot to their homes.

The Association will be called to order in the Walnut Street Baptist church at 4 p. m., Tuesday, November 14. Officers will be elected and the general work carried on.

Thursday night will be State Mission night, and a great number of Mountain preachers will speak. This will be one of the most thrilling hours of the Association.

On Thursday afternoon the meeting will adjourn, for those attending the Association, to be given an automobile ride over the city. An enthusiastic welcome awaits those who come. Ten years ago the Baptists of Kentucky gave \$84,000. To all purposes this year they will give \$193,000.

NOT A FORCE BILL

Senator La Follette, of Wisconsin, the sole Republican in the Senate who voted for the eight-hour law, denies the Republican charge that it is a force bill procured by the threats of the brotherhood. The only force recognized in its passage was the force of public interest. Neither did Congress act without consideration. The question of an eight-hour day was not a new one and every Congressman was alive to the issue. Notwithstanding Senator La Follette's support of the bill he was renominated for the Senate by his constituency, an evidence that they agree with the stand he took and that he did right in standing by the president. Uncle Joe Cannon voted also for the eight-hour law along with 70 other republicans in the house. Wonder how the old czar likes the criticisms of the bill by those who would discredit him for the sake of a point against President Wilson.

There was a good meeting of the Christian County Strawberry Growers' Association Wednesday afternoon. Reports from growers indicate that the Association has about 130 acres of berries in first-class condition, a few of the members letting the grass and weeds take their patches.

Dr. C. W. Lester, one of the leading physicians of Todd county, died at his home at Guthrie last week, of apoplexy, aged 59 years.

Dr. J. D. Barker sustained a badly sprained wrist a few days since while cranking his automobile. He thought the wrist was broken, but an X-ray examination disclosed no broken bones.

Mrs. W. R. Dudley, who had been ill for several days, submitted to a Caesarian operation in a Nashville sanitarium Tuesday. The operation was entirely successful, so far as the physicians can determine now, and Mrs. Dudley is reported getting along nicely. The child, a fine boy, is also doing nicely.

Clarence Hulse, son of Rev. and Mrs. T. L. Hulse, of Hopkinsville, accidentally shot himself in the arm Tuesday at the home of his brother, Frank Hulse, near this city.

Mr. Hulse had been out hunting, and, it is reported, encountered a snake near the house. While prodding the snake with the butt of his gun it was discharged and the lead took effect in the muscles of the left arm, making a very serious wound. He lost a good deal of blood before physicians reached him, and was very weak as a result.

Not Yet

Not yet is the "passing" of the horse. It is said that by count there are 60,000 horses in the city of Detroit, and that the last 14 years in spite of auto trucks and the 40,000 automobiles in the same city, the horses have increased from 13,000 to 60,000. It is further estimated that \$3 1/2 per cent. of the road transportation of our country is still done by horses.

ENGLAND HOLDS U. S. TOBACCO

Heavy Loss Is Probable
Through Action of
London.

London, Oct. 20.—Large consignments of tobacco from the United States for Dutch and Scandinavian ports are being held here on the claim of the government that they fail to comply with the recent arrangement under which cargoes paid before August 4, and shipped prior to August 30, might proceed to neutral destinations.

Many American tobacco shippers who have their own representatives in Europe with whom they do a wholesale business shipped to them under the impression that the new order would permit such action. The government, however, contends that proof must be furnished that the cargoes were paid for before August 4 by the actual European buyers.

Cadiz and other neighboring towns are to be visited on next Tuesday, October 24th, by one hundred boosters in automobiles from Hopkinsville. The party will start from Hopkinsville at seven in the morning and will visit Julien, Gracey, Cerulean, Walling, Cobb, Otter Pond, Hopson Store, and will reach Cadiz at 12:40, where they will take dinner. They will leave here at two o'clock and go to Canton and Golden Pond, where they will spend some time. They will return to Hopkinsville by the way of Cadiz.

Mr. Henry DeLawson, a well-known citizen of this city who is blind, happened to the painful misfortune of getting his right hip broken last Friday afternoon. He had caught a mule at his home and undertook to lead the animal out of the lot through a gate. The mule pulled back as Mr. DeLawson went through the gate and he was thrown to the ground with much violence and his hip broken in the fall.

Rud Averitt has been given the position as plumber and tinner at the Western Kentucky Hospital at Hopkinsville, and he will go to Hopkinsville today to assume his duties. He will probably move his family to that city in the near future.

WHY "RAMONA" IS A SUCCESS.

The secret, if one can call it that, of the sensational success of "Ramona" is found in the fact that, for the first time in the history of the motion picture art, a photo spectacle has been produced that does not depend on melodramatic sensationalism for its appeal. The ordinary course of procedure is for the producer to take a story or play that seems available material and inject some startling and generally improbable incident in order to provide what is known in professional circles as "The Punch." This situation did not confront the producers of "Ramona," however, as the basis provided by Helen Hunt Jackson's famous novel was in itself all sufficient. They simply took the book and followed it chapter by chapter, taking the various scenes on the actual ground described by the author, and utilizing the real Mission Indians for the background and for the less important characters. The result is a cinema operatic spectacle which for beauty, absorbing interest and correctness of technique, has never been equalled.

"Ramona" is lent an additional charm by the fine symphonic orchestration, specially written by Emil Bierman, and played by an operatic orchestra of expert musicians.

"Ramona" will be the attraction at the Tabernacle on Oct. 26 and 27 with matinees each day.

Tom Stuart Convalescent.

Col. T. G. Stuart, of Winchester, who probably knows more people personally than any man in Kentucky, slowly recovering from an illness that threatened to be mortal. No matter where Col. Stuart—the title was conferred by the Governor—goes he meets dozens of persons he can slap on the back and call by the first name. He never forgets a face or a name. At 16 years of age he edited a paper at Winchester and began to become acquainted throughout the State. As an officer in the Kentucky Press Association he came in contact with the journalistic fraternity and through them he acquired other friends. Since then he has been a lawyer and promoter. His business has required him to travel a great deal and he numbers his New York friends by the well, it wouldn't be safe to use figures. Winchester newspapers use the colonel as a biographical department whenever an old resident dies. Trust him to know all the family connections. —Lexington Leader.

Holds His Own.

Though the sound of the auto is heard throughout the land and the scent of gasoline is wafted over mountains, plains, ordinary fields and city streets, and, though Americans are talking and thinking in terms of the automobile, the horse somehow seems to hold its footing.

ED CAMPBELL OF ST. LOUIS

A Hopkinsville Boy Died
Wednesday, Aged 55
Years.

Edward Taylor Campbell, 55 years old, president of the American Central Insurance Co., died at 3 o'clock Wednesday afternoon at his home, 525 Clara Avenue, St. Louis. He had been suffering from a liver complaint.

He is survived by his wife and two children, Mrs. B. G. Chapman, Jr., and Edwin T. Campbell.

Mr. Campbell was the oldest son of the late E. P. Campbell and was born in this city in 1861. He was educated in Ferrell's High School and began business here, but removed to St. Louis about 25 years ago.

Two brothers, Walter and Hugh Campbell, survive him.

Had to Buy His Nomination

Candidate Hughes makes a great ado because Minister Herrick of Ohio, was recalled from France to make room for President Wilson's appointee claiming that his transcendent ability should have left him undisturbed in his position, but the voters of Ohio do not seem to think that Mr. Herrick is so necessary to the public service as he had to buy his nomination for the United States Senate. A sworn statement of his expenditures and that of his supporting league show that together they spent \$51.75 or \$61.75 more than the salary of the office for six years, to secure his nomination. There must be some big stakes in sight when such heavy entrance fees are paid. Wall Street and the interests doubtless put up the money as they are doing to elect a man that they can use. Mr. Wilson has no such backers. His campaign expenses are contributed solely by the common people, whose true friend he is.

STATE MILITIAMEN

Declared In Federal Service,
Despite Refusal to Take
Prescribed Oath.

Boston, Oct. 20.—The United States Circuit Court of Appeals ruled that members of the State militia were still in service for Federal military purposes notwithstanding their failure to take the oath under the National Defense Act of last June. This decision reverses a recent order of the Federal District Court. The case was considered a test of the application of the new law upon which disposition of similar cases in other States will depend.
